For many homeowners, septic systems are out-of-sight and out-of-mind, but YOU as a professional must convey how critical these wastewater treatment facilities are to their health and safety. In this two-day training course, learn what you need to properly inspect and report on septic systems in New Jersey. This course has been designed to identify the steps of the inspection sequence, as well as related science and research on the function of individual components.

Based on NJDEP’s established protocol for septic system inspections, the course will cover:

- The role soil plays in system function and failure
- The pros/cons and applicability of various test methods
- Report writing essentials and tips
- Alternative septic systems.

A visit to a working system will be included as part of the program.

Join course coordinators, Tom Cahill and Marilyn Mroz, as well as other knowledgeable/experienced professionals from the onsite wastewater field to learn what you need to know. A great introduction to the subject or a refresher if you are rejoining the field!

Payment Policy - All students must have prearranged for payment to be admitted to the class.

Cancellation & Substitution Policy - Registrants may withdraw in writing from a class up to (3) three full working days before a course begins and receive a full refund, less any materials fee or as otherwise noted on the course webpage. If the Office of Continuing Professional Education is not notified in writing at least three working days prior to the start of class, registrants may be responsible for the full fee. Substitutions are permitted.

Accommodations for Individuals with Disabilities: If you require special assistance, please notify our office when you register or no less than one week before the course starts. Every effort will be made to accommodate reasonable requests.

Mark Your Calendar!!

Our annual offering of “Onsite Wastewater Disposal Systems - Environmental Protection Beyond the Standards,” will be held October 5 & 6, 2015 at the Rutgers EcoComplex in Bordentown.

Please visit our website (www.cpe.rutgers.edu) for additional information.
