

Gardening for Winter Interest

This talk will focus on plant material chosen primarily for its winter aspects. We will touch on other seasons of interest those plants may have as well. Below are the aspects of focus as well as space to take notes about the ones that speak to your interest.

Form: Looking beyond foliage.

Color: Yellows and Blues and Greens. Oh my!

Bark: Not just Dogwoods.

Texture: Getting a feel for it.

Flower: In the winter? Really?

Vantage Points: Enjoying those plants from the warmth of your home.
